THE USA AI SUMMIT 26

JUNE 17th, 2026

WASHINGTON, D.C.

Introduction

The USA AI Summit 2026 will bring together policymakers, industry leaders, researchers, and innovators from around the country for a full day of discussions on the direction of AI and its broader impact. The Summit will provide a space to share perspectives, address real-world challenges, and explore how AI is reshaping economic systems, social dynamics, and global partnerships.

Through a mix of keynotes, panel discussions, and fireside chats, participants will tackle some of the most pressing questions around AI today. Key discussions will assess the administration's deregulatory strategy through the AI Action Plan, the prospects for bipartisan AI legislation, and the operationalization of AI governance across industries. Additionally, the summit will address the infrastructure required to sustain AI innovation, the U.S.'s position in global AI leadership, and strategies for fostering international cooperation. Sessions will also delve into public trust in AI, the expanding role of AI in government operations, and the ethical, security, and policy challenges that lie ahead.
